

Subject: Invitation to Join the Editorial Board: APTUS – Journal of Cyber Governance and Digital Justice

Dear Dr./Prof./Mr./Ms & Eminent Personalities

Following the successful launch of the first issue of the *Interdisciplinary Journal of Computing and AI (IJCAI)* in April, 2026, Aspiration Publishing Trust is proud to announce the preparation of the second issue publication in August 2026. As part of our commitment to expanding our academic footprint, the **Trust has secured two ISBNs and has already submitted one of our upcoming books for final release.** Furthermore, our sister wing, **Aspiration Trust**, continues to provide specialized services to international clients across the USA, UK, and other regions. Continuing this momentum, we are now launching a new publication: *APTUS – Journal of Cyber Governance and Digital Justice*.

I am writing to you on behalf of the Editorial Board of APTUS to formally invite you to join us. Given your distinguished work in [Cybersecurity informatics, Criminal Justice, or Digital Law], we would be honoured to have you serve as a **member of our Editorial Board**.

Our journal, "APTUS – Journal of Cyber Governance and Digital Justice," seeks to bridge the critical gaps between technical informatics, criminological theory, and legal frameworks. In an era where digital threats evolve faster than policy or forensic capabilities, we believe your unique perspective would be invaluable in guiding the intellectual direction of this publication.

As a member of the Editorial Board, your contributions would include:

- Providing strategic guidance on the journal's scope and future thematic issues.
- Conducting high-level peer reviews for submissions that bridge technical and social science domains.
- Helping to foster a collaborative environment that encourages multidisciplinary discourse.

We are specifically looking to build a board that challenges "siloe" thinking, and we believe your expertise is essential to achieving that goal. Your involvement would not only bolster the academic rigor of the journal but also help shape the dialogue between policymakers, law enforcement, and technology researchers.

We would be delighted to discuss the details of this role with you further. If you agree to be involved in this endeavour, please provide your consent along with an updated profile, ORCID ID, and any other relevant credentials to the following email addresses: **director@aspsonline.com or eic@aspsonline.com**.

Thank you for your time and for your ongoing contributions to the field. We look forward to the possibility of working with you.

Sincerely,

Prof. (Dr.) Mohuya Chakraborty, Editor-in-Chief
